*1: Asset size is based on the total acquisition cost of each portfolio.

Small-scale: under ¥5bn Medium-scale: ¥5bn-¥10bn Large-scale: over ¥10bn

Note: The Group uses the following standards for calculating the balance of AUM.

- AUM includes all real estate properties where the Group performs asset management services.
- The balance of AUM is calculated based on the acquisition cost of properties (net of taxes). Costs associated with acquisitions, capital expenditures to enhance property's value and other related items, which are typically included in the book value of properties for accounting purposes, are not included in the calculation of AUM.
- AUM includes properties that the Group holds itself for a short period of time and provides asset management services to. AUM also includes properties held by REITs (Kenedix Office Investment Corporation, Kenedix Residential Investment Corporation, Japan Logistics Fund, Inc. and Kenedix Private Investment Corporation) who are managed by Kenedix affiliates.
- The balance of AUM may potentially decrease as a result of the Group's activities which include disposition of properties.
